

High-end refurbishment

Penthouse suite, Gray's Inn, London

Highlights

Axis was commissioned to complete a high-end refurbishment of a residential penthouse apartment suite for the Honourable Society of Gray's Inn, as part of the voids and external refurbishment programme within our Grade II Heritage listed property portfolio.

Following a complete strip-out, prestige internal refurbishment works were carried out to the kitchen/diner, en suite bathroom, entrance, three bedrooms, living room and windows, followed by a full re-decoration to a high finish.

The programme included sensitivity to noisy working hours, which ran between 8-10am and 12-2pm to suit the tenants in the accommodation.

All tenants were regularly kept informed by our on-site Resident Liaison Officer.
