

# Refurbishment, remodelling and fit-out

11 Stone Buildings, Lincoln's Inn, Chancery Lane

## Highlights

11 Stone Buildings is an 18th Century Grade I listed property, located in central London. The building is part of the Honourable Society of Lincoln's Inn estate, occupied by a leading set of commercial and chancery barristers.

Completed in May 2017 the scope of works included a Category B fit-out, refit of offices, conference rooms, toilets and kitchenettes. Internal layout adaptations were made due to the relocation of the WC facilities. A modern café fit out was installed in the basement of the building, alongside a new lift, which included structural works. The roof was stripped and replaced, complete with New Welsh slate.

## Specifications

- Lift installation
