

Kitchen refurbishment

RAF Cosford, Ministry of Defence, Wolverhampton

Highlights

We were appointed to complete a kitchen refurbishment programme at the MOD's RAF site in Cosford, which involved kitchen renewal within 100 homes. The works were comprised of flooring replacement, kitchen unit installation, scribed finish worktops, kitchen rewire, electrical outlet upgrade, Mechanical and Electrical, plumbing works and internal redecoration. Each kitchen renewal was completed in 8 working days to the specification of the client.

Client Testimonial:

// *Having inherited the improvement programme from a previous contractor, the Axis team quickly turned things around, communicating and delivering the work to a standard that assured myself and the rest of the team that we were in good hands.* //

Alex Monk
Asset Officer (Planned)
