

Repairs and redecoration

North and South Market Halls, Covent Garden for Capital & Counties CG Limited

Highlights

Axis repaired and redecorated the Grade II listed, North and South Market Halls in London's iconic Covent Garden. The project (completed September 2017) comprised of refurbishing the (high level) cast ironwork, glazing and roof, which enhanced the aesthetic finish and protected and preserved important components of the building.

Work was undertaken out-of-hours, to ensure the popular tourist destination and its retailers could function normally during the day. The programme was able to be compressed into two months, by running concurrent works in both the North and South Halls.

Specifications

- Cast ironwork
- Glasswork (cleaning and repairs)
- Painting and decorating
- Roof repairs
- Brickwork, stone and concrete
- Leadwork

9 weeks duration
