

External repairs and redecorations

34 King Street, Covent Garden for Capital & Counties CG Limited

Highlights

Axis completed an external redecoration project on a residential heritage property on King Street in Covent Garden, London. Work included external repairs to stonework and brickwork; roofing repairs including leadworks and tile replacement; window repair and replacement with external painting.

Axis is experienced in restoring, renovating and refurbishing listed buildings and period properties to a high standard whilst conserving the buildings' features. As the team was working in one of London's busiest shopping/tourist areas – and above commercial premises – they prioritised minimising disruption to residents, shoppers and local businesses..
