

Roof renewals and repairs

L&Q, Victorian property, south west London

Highlights

Our team undertook a full roof renewal and repairs programme to L&Q's Victorian house on Stockwell Avenue in Brixton, south west London. The property is divided into three apartments.

We fully replaced the entire roof and its supporting structure, installing a steel beam. Our team demolished the rear wall of the building to the first floor and rebuilt it. We also rebuilt the front parapet wall and the lower balcony.

Specifications

- Demolition and rebuilding
- Replastering
- Full roof replacement including supporting structure
- Redecoration and restoration
- Window refurbishment

£180,000 value

4 months duration

We completed our programme by refurbishing windows, re-creating all the original decorative mouldings and decorating internally and externally.

The Roof renewals and repairs project made the Victorian property safe and comfortable for residents, and also enhances its value and appearance for our client.
