Checklist – Fire Safety Plan / Continued

Hot Works: Arrangements for permits to works:

A formally documented procedure designed to provide additional safeguards for the specified activities will be operated, all package contractors will be required to comply and their works will not commence without a permit being in place. Permits are obtainable from the PIC.

Temporary Buildings & Accommodation: Arrangements for this project:

The following temporary buildings and accommodation will be provided:

Welfare

N/A

Offices

N/A

Storage

N/A

Emergency Procedures: Arrangements for this project:

Raising the alarm

You must alert the fire marshal (either in person or by mobile phone), your workmates and anyone else in the vicinity.

Fighting the fire

You may attempt to use a fire extinguisher to put out the fire, but only if you have been trained in its use and you do not put yourself or others at risk in doing so.

Evacuating the site

If the alarm is sounded the workforce and any visitors must leave the site by the escape routes and exits which are clearly marked on the site plan displayed in the rest facilities. You must not stop to collect tools, equipment and personal items and may only attempt to render assistance to others if you do not put yourself or others at risk in doing so.

Muster Point

After leaving the site you must assemble at the muster point. You must stay at the muster point and must not attempt to re-enter the site until you are advised by the PIC that it is safe to do so. You must not leave to go home without informing the PIC.

Location of the
Muster Point

The Muster Point is located at: Car Park

Calling the Brigade

In the event of an emergency the PIC will be responsible for calling the Brigade.

Checklist – Fire Safety Plan / Continued

Fire Brigade access, facilities, liaison & co-ordination: Arrangements:

Access

Access for the Brigade will be via: Vehicle Gate on Amelia

Fire fighting shafts

Fire fighting shafts are located at:

Fire lifts

Fire lifts are located at:

Temporary hoists

Temporary hoists are located at:

Dedicated routes

Dedicated escape routes are located at:

Sprinklers

Sprinkler installations serve the following floor(s)/area(s):

Floor loadings

The following loading limitations apply:

Dry risers

Dry riser inlets are available at:

Wet risers

Wet riser inlets are available at:

Fire points

Fire points are available at:

Temporary buildings

Temporary building and accommodation are located at:

Hazardous items

Flammable liquids are stored at: (off site, unless designated area has agreed between SM.

Gas cylinders are stored at:

Gas mains are present at the following locations:

Electrical risers are present at the following locations:

Temporary holes in floor slabs are located at:

Co-ordination

The PIC will be responsible for liaising with the Senior Officer.

Checklist – Fire Safety Plan / Continued

Security measures to prevent Arson: Arrangements for this project:

Signing in / out

You must sign in when starting work and sign out when finishing. The register will be kept in the office or designated welfare area by the PIC; this will also apply if there is a need to leave the site for any reason.

Access points

You must only enter the site via the designated access points and must play your part in ensuring the gates and doors to work and storage areas, compounds or cages are properly secure at all times, particularly at meal breaks, to prevent unauthorised access.

Special measures

Materials storage: Arrangements for this project:

Allocation of space

The PIC will allocate space within the working area(s) or compound for the storage of materials. Premature delivery and storage of unreasonable quantities of potentially flammable materials will not be permitted.

Flammable liquids and gases generally

The PIC must be informed of flammable liquids or gases to be brought onto and stored on site.

Flammable gases

Contractors, sub-contractors and others are to provide the appropriate secure cages for on-site LPG and gas storage, or they must arrange for cylinders to be brought to and taken away from site on a daily basis. Cages are to be placed on a clean, dry and level hardstanding with appropriate warning signage and kept free of flammable waste, rubbish and weeds.

Flammable liquids

Contractors, sub-contractors and others are to store flammable liquids in banded areas with a 10% safety factor. In the event of this not being possible or appropriate they shall provide fire-resistant stores, cupboards or bins and in this case the storage of flammable liquids is to be strictly limited to a maximum of 50 litres or a half-days supply whichever is the least. All storage facilities are to have appropriate warning signage.

Waste control: Arrangements for this project:

General provisions

Skips will be provided for the collection and removal of waste. The workforce is to ensure all debris or waste is bagged and cleared at the end of the day or shift and their working areas are kept tidy. The burning of debris or waste on site or within skips is forbidden.

Specific provisions

Checklist – Fire Safety Plan / Continued

Monitoring & Compliance: The PIC will monitor all requirements of the Site Fire Plan, paying special attention to the following:

Briefing/Induction – as required

The PIC will update and brief the workforce (& new members) where changes in procedures / working methods or configuration of the site require it

Hot Works & Permit Arrangements - continuous

Compliance with PTW arrangements. All unauthorised or non-compliant works by any member of the workforce will be stopped immediately. No hot works are to be carried out during the period of two hours before the end of the working day or shift.

Fire extinguishers & alarms - weekly

All those carrying out hot works of any kind are to ensure they have an extinguisher in the immediate vicinity.

Access / egress & escape routes & working areas - weekly

High standards of housekeeping are expected, all routes and working areas are to be kept free of waste, debris of flammable materials all of which is to be removed to the skips or from site on a regular basis.

We the undersigned confirm we have been briefed by the Person-in-Charge (PIC) and we understand the requirements of the SITE FIRE PLAN
