- 1.2 In this statement slavery and human trafficking is referred to as modern slavery.
- 1.3 This statement applies to all legal entities that form part of the Axis CLC group of companies.

2 About Axis CLC

- 2.1 Axis CLC operates across the UK as a contractor delivering a wide range of services including refurbishment, maintenance partnerships with housing associations and local government, planned works, including fire risk assessments, cladding remediation, painting and heritage works.
- 2.2 The success of the company is based on a sustainable business model with many long-term customers and the business is reliant on its workforce and supply chain to ensure quality delivery to the customer. The company also employs a subcontract supply chain of varying size according to workload or specialism requirements to deliver its services.
- 2.3 Axis CLC recognises that construction, maintenance and subcontracting activities may present elevated risks of modern slavery, particularly where temporary labour, agency workers and complex supply chains are involved. Risk assessments are conducted to identify and mitigate these risks through supplier due diligence, ongoing monitoring and workforce awareness initiatives.

3 Commitment to the principles of the Modern Slavery Act

- 3.1 Axis CLC is committed to the principles of the Modern Slavery Act 2015 and the abolition of modern slavery and human trafficking.
- 3.2 As an equal opportunities employer the company is committed to creating and ensuring a non-discriminatory and respectful working environment for its workforce. The company wants all its employees and workers to feel confident they can expose wrongdoing without risk to themselves.
- 3.3 The company's recruitment and people management processes are designed to ensure that all prospective employees are legally entitled to work in the UK and to safeguard employees from any abuse or coercion.
- 3.4 The company does not knowingly enter into business with any organisation which knowingly supports or is found to be involved in slavery, servitude and forced or compulsory labour. The company's position is one of zero tolerance of modern slavery.

4 The Company Supply Chain

- 4.1 The Company supply chain is characterised by skilled technical contractors and trades where the company is unable to fulfil all the operational requirements or skills with its direct workforce. The company utilises a prequalification questionnaire (PQQ) which runs through a central approval portal before any organisation is able to supply goods and/ or services to the company.
- 4.2 The company will not knowingly support or approve any business involved with slavery and/or human trafficking and any such occurrence will result in the removal of such an organisation from the company's supply chain.
- 4.3 The company is ISO 9001 accredited and continuously monitors and audits its risks in this process.
- 4.4 In order to ensure that the supply chain recognises, understands and operates as the Act dictates, as part of the PQQ disclosure process subcontractors are required to confirm that they understand the terms of the Modern Slavery Act and that modern slavery is not present in their business.
- 4.5 The supply chain is reviewed continuously with the implementation of the central portal regarding changes in subcontractors' structure and nature of business.
- 4.6 Agency staff are recruited through companies that have been added to our preferred suppliers list after a selection process and are reviewed by our internal recruiter. Information has been added to the selection process to ensure the agencies understand their responsibilities in relation to the Act.
